

Elevating The Patient Experience

Nouf Alarrak, Customer & Patient Specialist

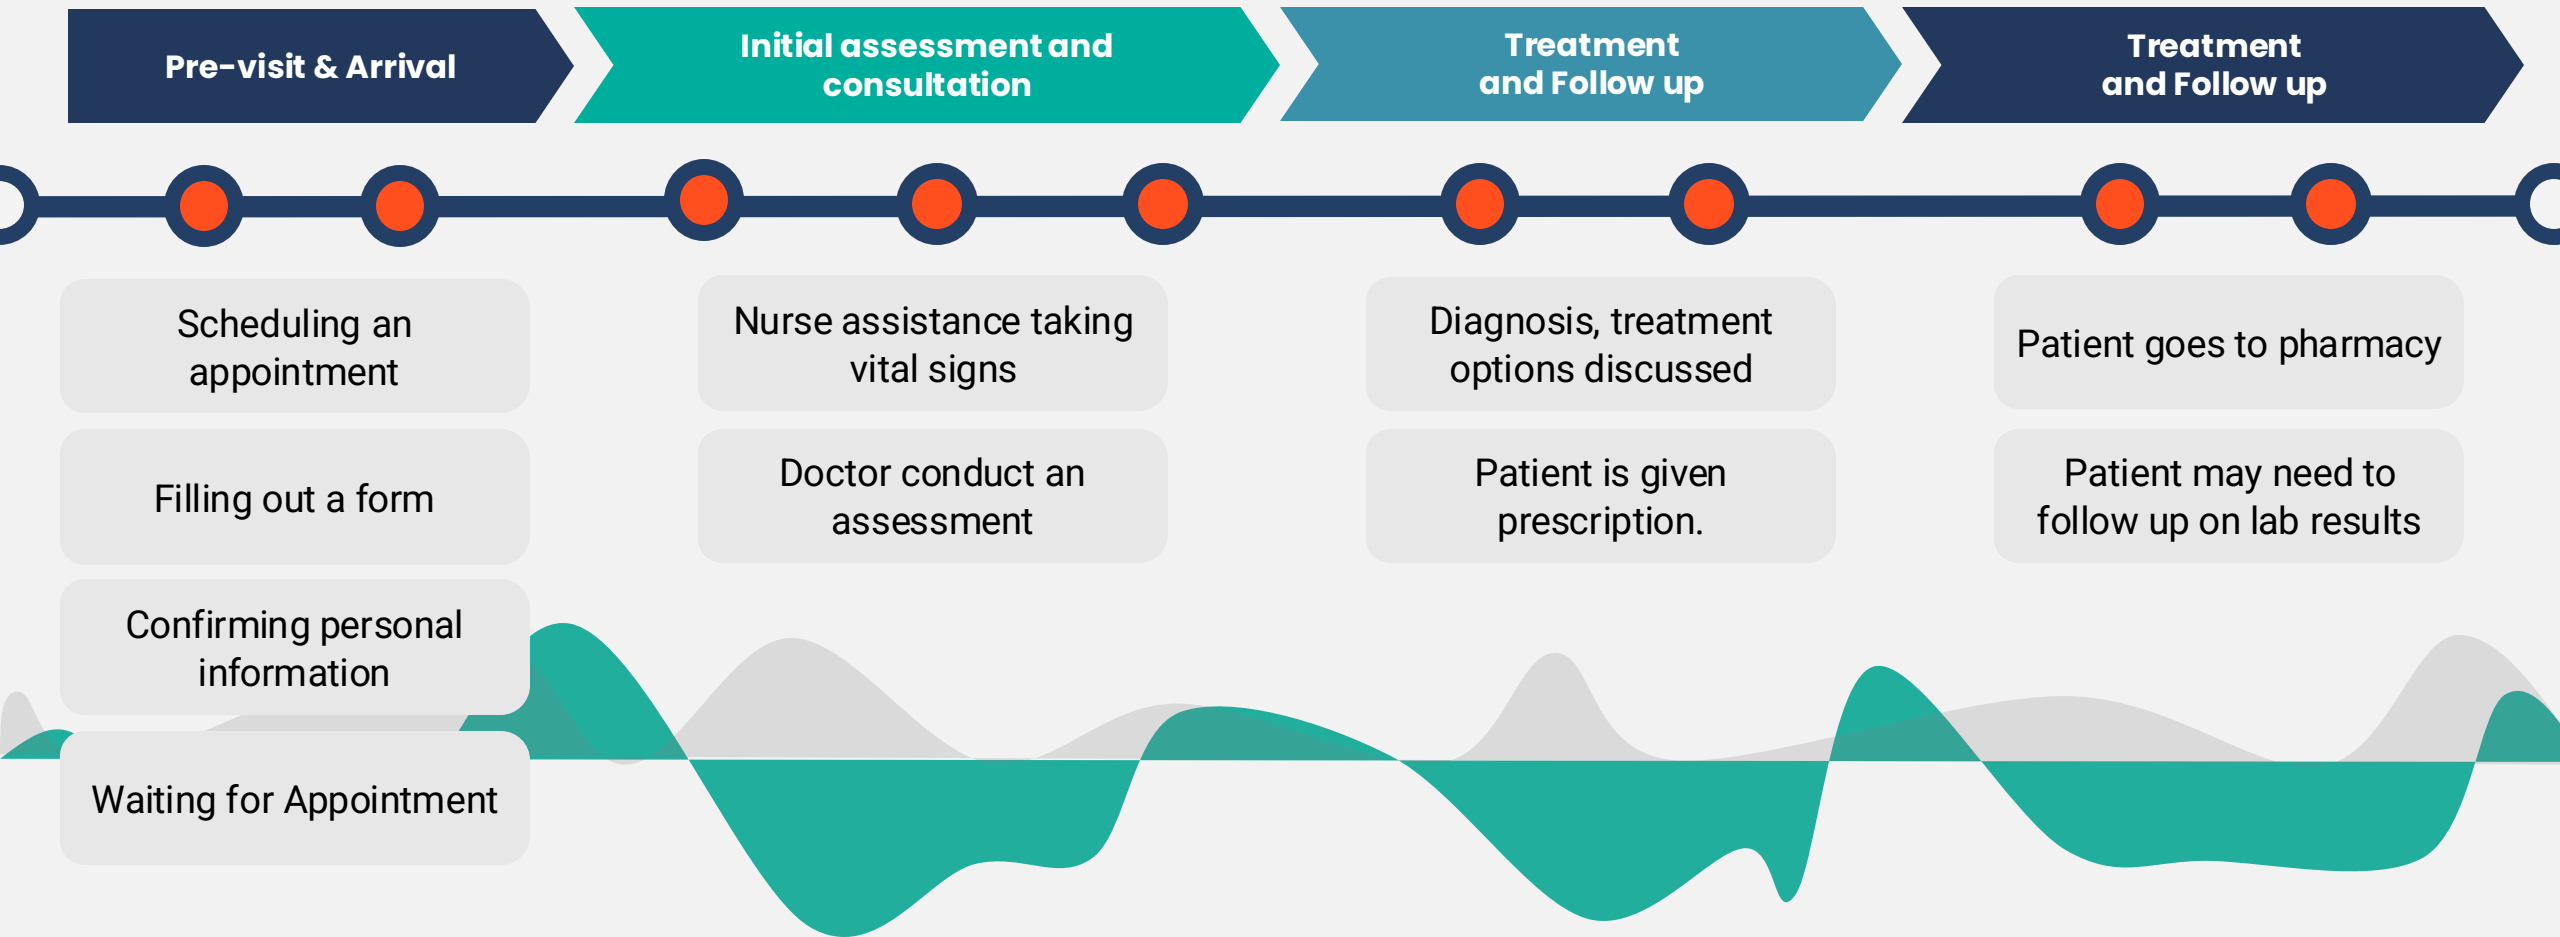

Account Executive at Genesys

The Typical Patient Journey

Sarah

SCENARIO: Sarah remembered that she needed to make an appointment with general medication.

How Can Elevate the Patient Experience?

Personalized Outreach

Allow personalized outreach for appointment reminders for your patients through the outbound channel of their choosing, either through Voicebots, SMS, or WhatsApp.

Add Lab results

Deliver personalized and actionable lab to your patients through their preferred channel!

Pharmacy Refill Reminders

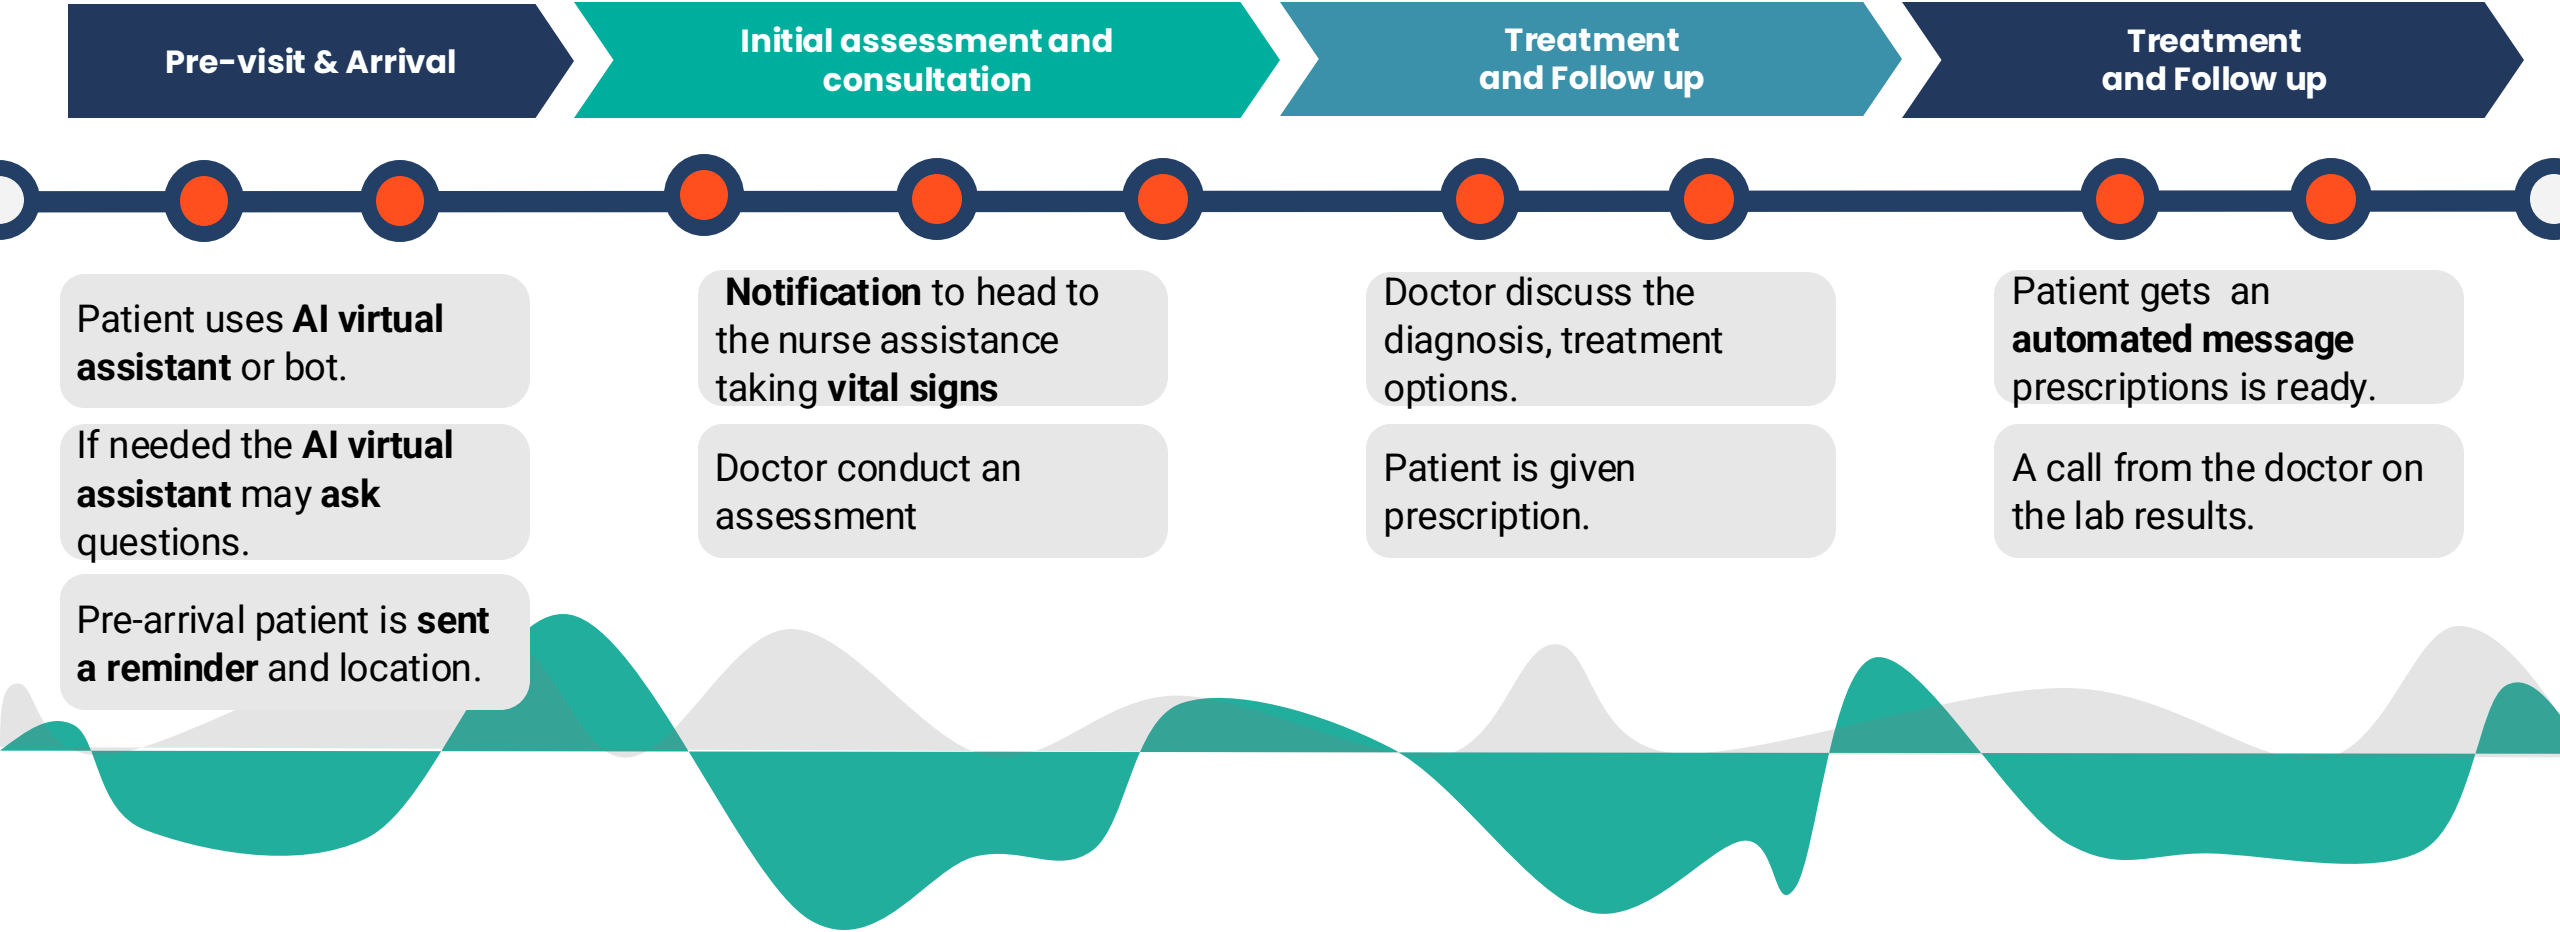

Ensure your patients are always reminded to fill their prescriptions through personalized outbound channels of their choosing.

Innovating the Patient Journey

Sarah

SCENARIO: Sarah got an automated call to remind her to see a general medication.
